POLINA IRON WORK at CHOMUTOV:

All products go to USSR. Production and transportation of finished products is conducted under supervision of Russian experts. They load products into 10-ton Polish-made wagons and send them to POLAND.

Raw-material for production comes from Austria.

They chose CHOMUTOV for production because of its special blast-furnaces allegedly.

25X1A

On 15 November 1951 they accepted more than 100 expert employees given at disposal by the Czechoslovak Army **LOTS**.

The seat of Soviet Commission which is in charge of production and expedition is MANNESMANN Factory in CHOMUTOV.

Production :

Special steel in dimensions :

quadrangular	18 mm x 6 meters
hexangular	22 mm x 8 meters
log	30 mm x 6 meters

and logs for axes 100 mm x 1500 mm whose compound is made according to a special formula (specialty of the enterprise) marked A.T.J. 45/95.

Production numbers per month :

quadrangular steel	5 tons
hexangular steel	8 tons
log (round) steel	10 tons
log (round) steel 10mm x 1500mm	15 tons
